	Yes I can					
	Connor Nolan				2020-07-13 12:29:14.000 AM	
	Sorry for late response					
	Johannes Treutler				2020-07-13 12:29:33.003 AM	
	great					
	Connor Nolan				2020-07-13 12:29:36.003 AM	
	What do you suggest? And what was reason for the halt?					
	Johannes Treutler				2020-07-13 12:30:14.003 AM	
	I saw management deposit CEL into Liquid before we all signed the trade policy					
	Johannes Treutler				2020-07-13 12:30:29.003 AM	
	so there was a risk of accidentally cross with them !!					
	Johannes Treutler				2020-07-13 12:31:47.003 AM	
	So we need how 260,565 from here right?					
	Connor Nolan				2020-07-13 12:32:55.003 AM	
	253,065 I believe					
	Johannes Treutler				2020-07-13 12:36:06.007 AM	
	ok here is my idea: let us buy 53,065 today and add the other 200,000 to the purchases of next week					
	Johannes Treutler				2020-07-13 12:36:42.007 AM	
	for today I suggest:					
	Johannes Treutler				2020-07-13 12:37:29.007 AM	
	53,065 @ 0.0000425					
	Johannes Treutler				2020-07-13 12:37:55.007 AM	
	for tomorrow -> let's wait how the night is going and how many selling pressure we will experience tomorrow					
	Connor Nolan				2020-07-13 12:38:14.007 AM	
	I think that makes sense as well... could be a dip tomorrow with the news					
	Connor Nolan				2020-07-13 12:38:33.007 AM	
	will do that order now					
	Johannes Treutler				2020-07-13 12:38:49.010 AM	
	Yes and if the dip occurs the extra 200,000 can be very useful					
	Connor Nolan				2020-07-13 12:40:02.010 AM	
	orders done and almost filled					
	Johannes Treutler				2020-07-13 12:40:07.010 AM	
	I could also imagine we spend most of the weeks estimated buy on the day of the bad news .. look, if people want to know if Celsius is doing well they look at CEL and not at anything else .. so if CEL does well we support the general company xD					
	Connor Nolan				2020-07-13 12:41:01.010 AM	
	got it					

Connor Nolan 2020-07-13 12:41:08.010 AM

Conner please start funding the Liquid account as early as possible for the whole amount we need to buy the next days (200k CEL from last week and estimated 500k CEL from this week) please use a reference price of 0.000045 BTC -> We need up to 32 BTC the next days

Johannes Treutler 2020-07-13 11:17:58.003 AM  
I am currently chatting with Harumi and Daniel about a stronger buyback today as we need to take care for CEL

How much BTC do we already have on Liquid?

Connor Nolan 2020-07-13 12:55:36.003 PM  
38 total 8 available... the .00004 resting order was filled

Johannes Treutler 2020-07-13 01:05:48.003 PM  
Yes people panic sold down to 0.000036 that's why Daniel talked to me and we decided to use the power of weekly purchase even more .. and Harumi approved it

Johannes Treutler 2020-07-13 01:05:57.003 PM  
We need to show a lot of strength today

Johannes Treutler 2020-07-13 01:07:01.003 PM  
Please put all free BTC into an order at 0.00004

Johannes Treutler 2020-07-13 01:07:34.007 PM  
This will show some strength and hopefully be already a good sign.

Connor Nolan 2020-07-13 01:09:33.007 PM  
200k at .00004

Johannes Treutler 2020-07-13 01:15:22.007 PM  
Thank you

Johannes Treutler 2020-07-13 02:05:51.007 PM  
how flexible are you today? I am looking to be very reactive to markets if markets need some support to stay neutral

Connor Nolan 2020-07-13 02:20:06.007 PM

Connor Nolan 2020-07-13 06:11:07.010 PM

Connor Nolan 2020-07-13 06:11:43.010 PM  
1800 filled on resting

Johannes Treutler 2020-07-13 06:12:19.010 PM  
I propose: 25,000 @ 0.000044 25,000 @ 0.000042 50,000 @ 0.000041 What do you think?

Connor Nolan 2020-07-13 06:15:02.013 PM  
Do you think we should instead be keeping our Ammo for when the story actually breaks

Johannes Treutler 2020-07-13 06:16:59.013 PM  
Hmmm ☺ actually I was trying to defend the 0.00004 to get other traders to also add orders above 0.00004 .. but yeah maybe it's too much

Connor Nolan 2020-07-13 06:17:17.013 PM  
we can do 50k now

Johannes Treutler 2020-07-13 06:18:12.017 PM  
Ok let's do just 20,000 market this will clear the price until 0.000044 and give us a bit more space

Connor Nolan 2020-07-13 06:18:29.017 PM  
agreed

Connor Nolan 2020-07-13 06:18:58.017 PM  
done

Connor Nolan 2020-07-13 06:19:24.017 PM  
some candle there haha

Johannes Treutler 2020-07-13 10:43:42.017 PM  
markets look stable .. nothing to do right now imo .. do you agree?

Johannes Treutler 2020-07-13 10:44:23.017 PM  
Should we leave the order at 0.00004 the way it is? I would say yes but let's see how you think about it
